

The SMK623RCB pattress complete with relay contacts, acts as the universal surface mounting facility for 230V mains smoke and heat alarms 7010 series. Its specific application is where a BRK smoke or heat alarm is required to operate with a remote telemetry system or ancillary device such as an automatic door release.

## Product features:

- Low profile for a neater installation
- Mains and interlink connections
- Colour coordinated to match the alarm
- Easy to fix
- Robust ABS design
- 2 x 20mm top entry knock-outs
- 1 Side entry knock-out for mini trunking
